Overall High-level Plan		System De	velopment	Program Design,	with some Alpha/Bet	a implementation								
Goals for Vertical CE Sectors by Phase							Pr	ogram Implement	ation, Rollout in 4 F	Regions, Replicatio	n of all curriculum a	and hands-on traini	ng in all 4 Regions	
ysDev: Backbone Orgs establish CE sectoral	Establish work	team: Backbone Le s & Wrap-around se	ad; WDBs; CCs;											
artnership teams, meetings, reporting		partners												
ysDev: Produce a CE sectoral ducation/experience Pyramid model for each CE		ulum that works for other CE sectors; D												
ector (core and variations) ysDev: Define the curriculum development and		training needs Define the course	curriculum to be											
quipment needs for ProgDes phase		implemented a	et CCs and RTCs Plan for Alpha											
ysDev: Prepare for Alpha Testing in Summer 023 in each Region			Test in each CE Sector	Run Alpha Testing										
sysDev: Alpha Testing				(~100 future CE Good Job placements)										
rogDes: Detail the process of delivery of urriculum and experimental training for each CE ector				focus on one CE S	gions implementat ector; Improve on a and hands-on cur Outfit the RTC in	Alpha Tests; detail riculum								
rogDes: Purchase training equipment for each legion (for one of the four CE Sectors)					hands-on eq associated curric		Run Beta Tests							
ProgDes: Prepare for Beta Test in Summer 2024 n each Region; do Beta Testing						Plan for Beta Test in each CE Sector	(1 CE Sector Curriculum in each region), ~240 future CE Good Job placements							
rogimp: Prepare for implementation of full set f 4 CE Sector Pyramid Models in each Region							Plan to implem additional equipn	Plan to implement the full set of ES Sectoral Pyramid Models in each region. Determine who/what will be taught on-line, additional equipment will be needed for course hands-on training. Collaborate with all horizontal cross-sector thrusts to ens alignment, reduce costs.					thrusts to ensure	
Proglmp: Ramp up for full cohorts of CE workers in each Region to take full spectrum of pre- apprenticeship training; Run Pilot #1; Plan and Run Pilot #2								training in RTCs,	ent for 4 CE Sector and for 2 mobile ig units.	Run 4-CE-sector Pilot #1 in 4 regions (1000 CE Good Job placements)	Evaluate Pilot #1, Pilo		Run 4-CE-sector Pilot #2 in 4 regions (1500 CE Good Job placements)	
Goals for Horizontal Cross-Sector Thrusts by Phase										,			,	
ysDev: DEIA, build Team and work with CE		Draft a DEIA st	atement/policy											
ectors				Incorporate DE	IA across CE Sector	s fairly, include								
rogDes: DEIA					Autism	1		Collect Data and	Report on meeting	goals improve fro	m Beta Testing to F	Pilot #1 to Pilot #2		
rogImp: DEIA		Growth Sector wo	rks with 4 regions					Conect Data and	neport on meeting	boars, improve fro	seta resting to F	not wit to Priot #2		
ysDev: Wrap-around Services, build Team and ork with CE sectors			SSSs, JFF to build nd support											
rogDes: Wrap-around Services rogImp: Wrap-around Services				Wrap-arouni	d support in 4 region	ns; Beta Test	Full wrap-around s	support system in p	place to support Pile	ot #1 and #2, SSSs	guiding all future C	E workers and colle	cting tracking data	
ysDev: Recruiting, build Team and work with CE		Apprenticesh connections into a future CE works Alpha Test, works to recruit more	all HSs in regions, ers recruited for ng with Verticals	Possition system	em using social me	dia built in all 4								
				regions, full co	ohorts recruited for % of 1000 CE indus	Beta Testing,								
rogDes: Recruiting				recruiting of 50	% of 1000 CE indus	stries completed	Recruiting system	established to bri	ng in 1500+ CE wor	kers/yr using socia	I media, WDBs, HS	outreach. Recruitin	g of 80% of 1000	
rogImp: Recruiting psDev: Job Placement, build Team and work		All regions and C	E Sectors trained					CE ind	ustries completed (	with commitment	s to hire trained wo	rkers).		
vith CE sectors		and using Job Pla	cement software	Linking of worker	s with employers w	corbing offortionly								
rogDes: Job Placement				using	Job Placement sol	tware								
rogImp: Job Placement ysDev: Core Curriculum, build Team and work		Establish core cu	rriculum across 4				All CE	industry partners	are able to attract	skilled workers to a	apprenticeship/inte	rnship/OJT opportu	nities	
rith CE sectors		CE sector in P	yramid Model	Verify and impre	ove core curriculum	in 4 CF sectors								
rogDes: Core Curriculum					ish the curriculum									
rogImp: Core Curriculum ysDev: Hands-on Training, build Team and work			curriculum across 4				Install a system w	here all future CE w	orkers across all 4 reg	ions can take core cu	rriculum courses on-	line, and have access	to hands-on labs	
vith CE sectors		CE sector in P	yramid Model	Verify and improv	re hands-on curricul	um in 4 CE sectors,								
rogDes: Hands-on Training					urriculum and traine as for future CE work									
rogImp: Hands-on Training							Install a system v	where all future CE	workers across all	4 regions can take	hands-on training o	ourses with access	to hands-on labs	
iysDev: Innovative Technology, build Team and		Technology thr verticals to def												
vork with CE sectors		research needs	for each sector	CEPDAM works	with vertical CE sec	tors to establish								
				approach to re	search and technol orated into Pyramie	ogy that can be								
rogDes: Innovative Technology				псогр	mo ryrainii		Research and 1	Technology develo	I pment course curric	ulum and lab train	ing is incorporated	into Pyramid Mode	ls for forward
